

Solaris 500

Low Power Solar Generator

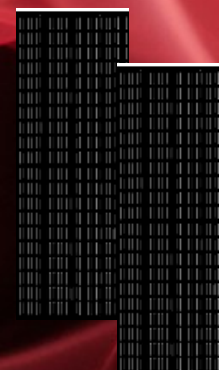

w/ Backup Internet Access!

Features

- * 500 Watt/ 120VAC power output
- * 100AMP/HR Lithium internal storage battery
- * 800W solar panel array
- * Perfect backup for gas appliances during a power outage.
- * Designed to charge the storage battery within one day
- * Proprietary V-Core Solar Energy Management Controller
- * 5 Year warranty
- * Expandable power!
- * Built in 4GLTE Modem that provides backup internet during a power outage!

Don't be caught in a dangerous situation without a power backup plan ever again!

Solaris 500 Low Power Solar Generators have all the equipment needed, including a 2ea -400W solar panel array.

Solarius 500 Low Power Solar Generator

Specifications

Solar Array

- Total Energy: 4KW per 5 hour day avg
- 2 each, 400 Watt Mono PV Panels
- Dimensions (H x W x D): 68" x 44.7" x 1.26"
- Weight 45.5 lbs. each panel

Wall Mount System Controller

500W Output Power, 120 Single Phase

NEMA Rated Outdoor Enclosure

- Rated AC output: 500 Watt
- Inverter efficiency: 97.6%
- Weight w/ Battery 75lbs.
- Dimensions (H x W x D): 24" x 24" x 9.5"
- Dimensions (H x W x D): 31.8" x 18.30" x

Backup Communications

- Includes built in 4GLTE Router
- Includes Omni Directional Outdoor Antenna
- Business Class WiFi Access Point

Instantly restores your internet connectivity when power goes down or your ISP cable service fails, 2 ms cut-over time.

Business Class Wi-Fi Access Point included in system !

Built in 4GLTE Router for instant internet access restore if there is an internet service outage.

Powerful V-Core Energy Management.
